

SARTHAK GULERIA

Payments & Product-leaning Generalist

[LinkedIn](#) | [Email](#) | [Not Resume](#)

PROFESSIONAL SUMMARY

Product manager with 4+ years building and scaling financial products in Web3 and DeFi. Designed incentive systems that drove \$17M+ in staked assets and 390k+ connected wallets. Track record of turning user feedback into product improvements and coordinating cross-functional teams through launches. Looking for product or product operations roles in payments and fintech.

EXPERIENCE

MilkyWay Zone – Remote

Product Manager (Core Contributor)

May 2025 - Present

(Promoted from Growth & Marketing Contributor based on ecosystem impact)

- **Incentive System Design:** Designed and launched the MilkyWay Points Program, a gamified rewards system that attracted 390,000+ connected wallets and secured \$17M in staked tokens (TVL).
- **Liquidity Strategy:** Led a cross-chain liquidity migration strategy to move \$1M+ TVL from Cosmos to Arbitrum, using targeted bonus incentives to solve cold-start liquidity challenges for new chain deployments.
- **Product Roadmap & Execution:** Leading product direction for core DeFi features, prioritizing roadmap decisions based on ecosystem signals and direct user feedback loops.
- **User Retention (Gamification):** Built *Multiplier NFTs* as a retention feature during TGE delays, stabilizing user sentiment and rewarding long-term capital providers.

Growth & Marketing Contributor

Feb 2024 - May 2025

- **GTM & Acquisition:** Drove go-to-market strategy for the Initia Testnet, resulting in 100,000 new user acquisitions and 300,000 wallet interactions in the first quarter.
 - **Community-Led Growth:** Scaled social presence from 0 to 70,000 followers by aligning content strategy with product milestones, establishing MilkyWay as a dominant TIA liquid staking provider.
 - **Feedback Loops:** Built structured feedback loops between early users and the dev team, translating community friction points into actionable UI/UX improvements for the mainnet launch.
-

Composable Finance – Remote

Marketing Strategist & Community Manager

Dec 2021 – Feb 2024

- **Product Operations:** Managed a 45k+ member community, serving as the primary bridge between users and engineering to improve UI/UX of cross-chain products (Mosaic and Mural).
 - **Support Systems:** Established and managed a technical support ticketing system resolving 1,500+ tickets related to cross-chain transfers and smart contracts, directly reducing churn by identifying recurring bugs.
 - **Ambassador Program:** Designed and launched the autonomous *Composable Ambassador Program*, recruiting regional leads to decentralize growth and support the protocol's governance launch.
-

Advanced Blockchain AG – Remote

Community Manager

Dec 2021 – Apr 2022

- Set up and moderated community channels across Telegram, Discord, and social platforms during early protocol expansion.
 - Acted as a user-facing liaison between the community and internal teams, escalating product issues and synthesizing feedback.
 - Supported product announcements, governance communications, and ecosystem updates during a high-volatility period.
-
